

## NEW LINE FOR NORTHWESTERN

Plan Branch to Madison via Rockford and Janesville.

## MAKE AN AIR LINE

It Means a Direct Line of Communication Between Madison and Peoria.

## THE WORK HAS BEGUN

Rockford, Ill., Jan. 24.—A branch of the Chicago & Northwestern railway running north and south is one of the transportation facilities Rockford will in all probability get this coming season. From a reliable source, it is learned that the Northwestern will extend its Peoria branch from Nelson to Janesville and in all probability to Madison, the projected route being by the way of Rockford. The new line is supposed to strike north from Nelson to Janesville and this would send it somewhere near Winnebago, but there is little doubt that if the road came within ten miles of Rockford it would make the deflection to enter the city. A. T. Golly and J. J. Carty, both of the Northwestern, said they knew nothing about the new road, but that that did not signify that it was not to be built, as they would probably hear nothing until the actual work commenced. That such a road had been in contemplation for some time, however, has been a well-known fact, and there seems to be positive assurance that it will be started this spring.

**Actual Work Begun**  
That the actual work was begun at Nelson was given out as a fact, and George Thome, a contractor of that city, says he has a contract for unloading 270,000 ties. This number will build 100 miles of road or almost the entire distance to Janesville which is positive assurance that the road is going through. The Northwestern has also had several surveying gangs in the country between Sterling and Janesville, and G. Hollenbeck, a farmer living north of Sterling, says that Hiram Hewitt, president of the road, has been out looking over the line and that he had some talk with him regarding contracts for doing some of the grading. That the line will be run through to Janesville there seems to be no doubt. That it will come to Rockford there is no positive assurance, but several men in the city who are regarded as posted on railroad matters say there is a strong prospect of Rockford being on the line.

**To Extend Peoria Branch**  
Sterling, Jan. 24.—It is now understood that the Chicago & Northwestern railroad has decided to extend their Peoria branch from Nelson to Janesville, Wis., crossing the river at Nelson bridge and going directly north. For some time the Northwestern has been contemplating this improvement, and it is now known to be a fact that the road will be built the coming season.

The company has already let a contract for some of the work, which is the unloading of the ties for the extension. It is understood that the work of surveying this new branch will soon begin. It appears that the company has decided to make Nelson, the terminal for the Peoria branch. Two cars of stone are arriving daily for a new round house, with a capacity of twelve engines. Material is also arriving for the transfer house and a new depot.

An important reason for the building of the road is that it will facilitate the transportation of coal to northern points from the coal field it taps between Nelson and Peoria.

## DANISH TREATY HAS BEEN SIGNED

The United States is Now the Sole Owner of the Danish West Indies.

Washington, D. C., Jan. 24.—The treaty between Denmark and the United States for the transfer of the Danish West Indies to this country was signed this morning by Hay and the Danish minister, Brun.

## Window-Glass Prices Go Up

New York, Jan. 24.—The immediate restoration of prices has been decided upon by the National Window Glass Jobbers' Association, and they will be quoted to customers direct. This decision was reached after a long fight. There were sixty jobbers in attendance from all parts of the country.

## Chester Griswold Is Dead

New York, Jan. 24.—Chester Griswold, president of the Crown Point Iron Company and vice-president of several other manufacturing concerns, is dead. His father, John A. Griswold, was one of the builders of Ericsson's Monitor.

## Killed in Pistol Duel

Huntington, W. Va., Jan. 24.—Col. Gilbert Bentley, a wealthy timberman of Big Sandy Valley, was shot to death yesterday in a pistol duel with Riley Pamey. The men had an old grudge. Pamey surrendered.

## WILL PAY HOMAGE TO ADMIRAL SCHLEY

Demonstration in Chicago Tomorrow in Honor of the Hero of Santiago.

Chicago, Jan. 24.—Rear Admiral Winfield Scott Schley of the United States navy will be in Chicago tomorrow morning. From the moment he arrives until he departs there will be demonstrations in his honor. He will find prepared for him a reception and a program of entertainment which it has taken the Hamilton club weeks to arrange. It is as elaborate as any ever projected for receiving a popular hero.

During the time that patriotic citizens are paying homage to a man whom they considered wronged, and therefore deserving of all the honor which they can bestow, Mrs. Schley will not be forgotten. On most occasions she will be with her husband, but while she is not a committee of women made up of the wives of the Hamilton club members, will dine and fete her.

## HARRIMAN AND HILL IN CHICAGO TODAY

The Railroad Magnates Summoned to Appear Before the Interstate Commerce Commission.

Chicago, Jan. 24.—E. H. Harriman and James J. Hill, heads of the two great railroad syndicates, arrived in Chicago this morning from New York to appear before the interstate commerce commission to testify regarding the combinations that have been effected through their instrumentality in the past year or two. J. Pierpont Morgan, though allied with Mr. Hill, has not been subpoenaed and will not be here.

It was reported that neither Mr. Hill nor Mr. Harriman would come to Chicago to give evidence of their gigantic railroad deals but both have decided to obey the subpoenas. At the request of Attorneys Spencer and Grover, representing the Morgan-Hill roads, and Attorney Baldwin, representing the Harriman lines, the commissioners have agreed to let as neither Hill nor Harriman anything that might prejudice the case now in the supreme court of the United States involving the validity of the Northern Securities Company.

In view of this agreement the examination or inquiry that may be pursued will be on lines that will bring out the effect of combinations and consolidations on rates.

## PUSHING ROCKFORD JANESVILLE ROAD

Rockford, Jan. 24.—From present indications the Rockford-Janesville electric line will be in operation earlier than has been expected. The open winter has been especially favorable to the work of construction and within ten days a gang of men will be laying rails on North Second street in Rockford.

About forty men are employed near Roscoe and are pushing ahead at the rate of about a mile a day. The new power house of the road will be completed in about thirty days.

## UNKNOWN STEAMER SANK IN A FOG

Chicago, Ill., Jan. 24.—Brussels, Jan. 24.—It is reported here that an unknown steamer, believed to be a Britisher, was stranded near Vlissingen, Netherlands, during a fog today, and sank. It is feared many persons went down with the steamer.

## WOULD HAVE CONGRESS ACT

Senator Mason Wants Thanks Tendered to Admiral Schley.

Washington, Jan. 24.—Mr. Mason (Ill.) in the Senate yesterday offered the following joint resolution:

"That the thanks of Congress be hereby tendered to Admiral Winfield Scott Schley for his brave and able conduct while in command of the American fleet at the victorious battle of Santiago."

"That a sword be presented to him by the Secretary of the Navy of the United States, and the sum of \$10,000, or so much thereof as may be necessary, is hereby appropriated for the purpose of this resolution out of any money in the treasury not otherwise appropriated."

That the Secretary of the Navy shall cause to be struck bronze medals commemorating the battle of Santiago and distribute the same to the officers and men under command of Schley during said battle of Santiago."

The resolution was referred to the Committee on Naval Affairs.

## Schley Leaves for Chicago

Washington, Jan. 24.—Rear Admiral Schley, with Mrs. Schley, started for Chicago this morning at 10:45 o'clock.

## Yosemite Club Abandons Fight

San Francisco, Jan. 24.—It is likely that the Yosemite Club will abandon the Sharkey-Jeffries fight in consequence of the former's fake with Maher.

## Rescue Crew of American Vessel

Berlin, Jan. 24.—The sailing vessel Hedwig of Bremen saved the entire crew of the large American four-masted James P. Smith, which burned in midocean.

## MINERS UPHOLD THEIR OFFICERS

President Mitchell and Secretary Wilson Exonerated by Convention.

## CHARGES NOT TRUE

Miss Meredith, Who Made the Accusations, Is Condemned by Committee.

## WILL BE REELECTED

Indianapolis, Ind., Jan. 24.—The United Mine Workers of America yesterday dismissed as unfounded the charges against President Mitchell, Secretary-Treasurer Wilson, and other officials, accused of concealing the facts of the Pearce shortage; endorsed the officials and condemned Miss Mollie Meredith, who preferred the charges.

The committee appointed to investigate the charges reported there was no foundation for the accusations, condemned such attacks, ordered that hereafter all charges be regularly preferred, declared that the national officers did all that could be done to protect the organization at the time Pearce was removed from office, expressed every confidence in the honor and integrity of the officers, and asked the convention to endorse the administration in every particular in the Pearce matter.

The convention voted the endorsement by a rising vote, and President Mitchell, in response to loud cries, spoke briefly, thanking the convention and the committee for the exoneration. Miss Mollie Meredith gave out a statement saying she knows she was right in preferring the charges, and that some day "justice will be done." She dwells on the strangeness of the fact that the mine workers should present her a medal for efficient service and two weeks later, after her alleged discoveries, discharge her for inefficiency.

The election of officers, which it had been expected would occur during the afternoon, was made a special order of business for to-day.

The convention ruled against printing part of the official journal in foreign languages.

The convention refused to concur in a resolution providing that all men doing guard duty, "taking part in a private army" in the service of any coal corporation, should be debarred from becoming members of the U. M. W. organization. In the discussion following the resolution antagonism by coal corporations cropped out. There was a difference of opinion as to whether this resolution would debar militiamen from membership in the miners' organization, but President Mitchell said it would not do so. The discussion gave opportunity for criticism of guards who protect non-union miners.

A resolution that the organization sympathized with women's labor organizations and would extend its aid whenever possible to such organizations was adopted.

The convention sat down hard on a socialist resolution to the effect that a political party should be organized, having for its purpose the welfare of the laboring people of the country in "fighting for government ownership."

## GRAVE DIGGER HAS BEEN CAPTURED

Identity of Animal That Has Been Burrowing in Cemetery, Baffles Green County People.

Monroe, Wis., Jan. 24.—A mysterious animal that has been digging into graves at the Juda cemetery, throwing to the surface bunches of hair, bones and coffin handles, was captured this morning. The animal cannot be identified. It is as big as a common size ground hog and has a tail as smooth as that of a muskrat. The nose is long and pointed and there are two sets of tusks on each side of the mouth. In color the animal is gray and has a white nose. The hair on the back is gray and very long. William Worley, a Juda lad, made the capture.

## BEST SHOW EVER GIVEN

Southeastern Wisconsin Poultry Association Meets at Delavan, Feb. 3-8.

Delavan, Wis., Jan. 24.—The fourth annual exhibition of the Southeastern Poultry association will be held here Feb. 3 to 8. The show promises to be the best ever held in the state, and from present indications the exhibit will be the best ever held in the state, and will be the largest in the history of the association. There will be poultry, Belgian hares and pet stock of all descriptions.

F. H. Shellabarger of West Liberty, Ia., will score the stock. Mr. Shellabarger is pronounced the best of judges on fancy poultry in the United States by all judges.

Special programmes have been arranged for every evening. There will be boxing contests between prize-winning game birds.

## APPEAL TO SKIP DANE COUNTY

Editor Wilder Wants the Stalwarts to Keep Out of Madison.

## FEARS THE RESULT

Whitehead Men Preparing to Enter County in Which the Governor Votes.

## SCOFIELD IS PLEASED

Madison, Wis., Jan. 24.—Amos P. Wilder has written an appeal to the stalwarts, asking that Dane county, the home of the governor, be omitted in the canvass for support of Whitehead on the ground that the governor would be humiliated by the circulation of a paper, which would be practically a condemnation of his conduct in office. While Wilder believes that the governor's home should be spared, he is losing no sleep about what is going on in Janesville, and nothing ever appeared in his newspaper, the State Journal, in condemnation of the efforts that were made in Oconto county by agents of LaFollette to discredit Governor Scofield in the eyes of his neighbors.

## Appeal is Pathetic

Wilder's appeal in behalf of LaFollette is pathetic, but it is doubtful if it will have the desired result. At the present time the scene of war is in Rock county, the home of Whitehead and it is being vigorously pushed by the game wardens, oil inspectors, and the state veterinary surgeon in a most relentless fashion. Nevertheless neither Whitehead nor his friends are finding any fault. In a few days the scene will shift, however, to Dane county, notwithstanding the protest of Dr. Wilder.

## Scarfolds Supports Whitehead

Ex-Governor Scofield said last night that he was highly pleased with the recent presentations of the tax question by Senator Whitehead, and believed that the result would be thoughtful consideration by the farmers and others who heard his speech at Milton Junction, while the address before the Six O'Clock club at Madison had already had a good effect in all parts of the state where it had been read. The Senator, he said, was giving the subject careful study, and was presenting it in a manner that argued strongly in his favor, as a candidate for the gubernatorial nomination. He governor says he believes Whitehead will be nominated without difficulty.

## Bryan Pleases LaFolletteites

William Jennings Bryan has come to the rescue of his friends—the LaFolletteites—in Wisconsin, making an attack upon the addresses delivered by Senator Whitehead at Madison. Whether brought to Wisconsin for this purpose or not, Bryan's service is highly appreciated by the organs of LaFollette, as evidenced in the conspicuous attention they give what he had to say against the argument of Whitehead and in favor of the populist system of settling disputes with corporations.

## WAUPACA HOME IS FREE FROM DEBT

Annual Report of the Old Veterans' Institution Shows Flattering Condition.

Madison, Wis., Jan. 24.—The annual report of the Wisconsin Veterans' home at Waupaca, just received at the G. A. R. headquarters, show that institution to be in a splendid condition.

For the first time in years the home is free from debt and a comfortable balance to the good. Last winter the friends of the institution came before the legislature and asked for an appropriation of \$50,000 to raise the debt and make some necessary improvements. As there was unusual pressure for money on all sides the legislature thought the home could get along with \$20,000, and appropriated that amount for it. By good management the authorities of the home were not only able to get along with this sum, but also cleared the institution of all incumbrances.

The state pays the home \$3 a week for the maintenance of each inmate. As there were 716 inmates when the report was made out on Dec. 31, the receipts from the state, based on that number, would amount to \$110,686. Owing to deaths and discharges however the average number of inmates was some less, which brought the receipts from the state down to \$87,347.14. The state is partially reimbursed by the national government, which pays \$100 a year for each male inmate.

## BELOIT IS UNDER NEW ACT

City Officers Will Likely Be Elected Next Time for Two-Year Term.

Beloit, Wis., Jan. 24.—It is not unlikely that when the mayor and city treasurer are elected next spring it will be for a term of two years. City Attorney Rood has consulted Attorney General Hicks concerning the act of the last legislature, which applies to cities of the second, third and fourth class in the matter, and notwithstanding that Beloit's charter was granted under a special act, General Hicks offers the opinion that the act of 1901 will apply to Beloit as well as other cities.

## NEW BUILDING FOR BELOIT COLLEGE

Trustees Plan a Gymnasium, Heating Plant and Some Other Good Improvements.

Beloit, Wis., Jan. 24.—The trustees of Beloit college held their semi-annual meeting in Chicago yesterday. The financial situation of the college was the main subject under consideration. This was found to be in a very satisfactory condition. The addition to the endowment funds made last summer placed the college on a sure foundation and the trustees are determined to keep inside of the college income in the future. C. B. Salmon was elected trustee and put in charge of the material cares. The betterment of the college building, a new gymnasium and a central heating plant for the college buildings is the next improvement the trustees are earnestly working to secure.

## BISHOP MESSMER IS NOT INFORMED

Green Bay Priest Has Heard Nothing of an Offer of the Archbishopric at Manila.

Green Bay, Wis., Jan. 24.—According to the America, a German Catholic daily published at St. Louis, Mo., Bishop Messmer of Green Bay is to be named archbishop of Manila; but it is said to be doubtful whether he will accept.

Bishop Messmer knows nothing of the proposed appointment save what he has read in the newspapers.

He refused to say whether he would accept or not until he received official notice. He has received no word so far and does not believe the report is authentic. The subject is now to him and he has not had time to consider it.

## EAST SIDE BELOIT IS UP IN ARMS

Beloit, Wis., Jan. 24.—East Side Beloit is up in arms again over the question of the inter-urban railroad. It has been known for a long time that certain property owners on the east side of the river radically oppose any railway running along State street and congesting the narrow thoroughfare approaching the bridge. It is open talk that either the common council and railway company must agree upon a change or route to Pleasant street or an injunction will be sought and fought out at length in the courts.

So far as the people of Beloit are concerned, they want the road built as speedily as possible, and any sort of proceedings that would be productive of delay in work will cause intense irritation. H. H. Clough was seen in reference to the matter by a Beloit News reporter and said: "I have no other thought than building our line across the bridge and up Fourth street. I am not worried over talk of an injunction. If it is desired that another route be taken the arrangements will have to be made very quickly."

## AN APPEAL FOR AID FROM CUBA

Washington, D. C., Jan. 24.—The following cablegram was received today by Speaker Henderson from the American club at Havana: "Please have the following read to the house: American interests in Cuba amounting to about eight million dollars demand help from the American government in this moment when we are on the verge of a financial crisis. With reciprocity Cuban imports of American manufactured goods alone would increase thirty millions within a year."

## OFFICERS OF THE NATIONAL GUARD

Madison, Wis., January 24.—(Special)—Governor LaFollette, commander-in-chief of the Wisconsin National Guard, will attend the officers' convention in Milwaukee next week. Captain Harry W. Newton, who assisted in the capture of Aguinaldo, will be at the convention and will relate his experiences in the Philippines.

## Scandinavians Choose Officers

Galesburg, Ill., Jan. 24.—The directors of the Scandinavian Mutual Aid association elected the following officers: President, N. J. Olsen, Galesburg; vice president, Professor A. O. Bersell, Rock Island; secretary, Nels Nelson, Galesburg; treasurer, Jonas A. Johnson, Galesburg.

## Rockefeller Gives \$100,000

Syracuse, N. Y., Jan. 24.—Chancellor James R. Day of Syracuse University announced yesterday that John D. Rockefeller had given the university \$100,000, which will be applied on the endowment fund. When this fund reaches \$400,000 John D. Archibald will duplicate it.

## State Historians Meet

Jacksonville, Ill., Jan. 24.—The Illinois Historical society is in session in the Jones Memorial building at Illinois college. It was decided to ask the next legislature to set aside \$250,000 for the founding of a historical library at Champaign in connection with the state university.

Mrs. Charles Touten of Fort Atkinson is a guest of the Misses Kennedy.

## STATE BANKS SHOW BIG GAIN

Increase in Deposits Were Over Seven Million Dollars.

## MUCH MORE MONEY

Nine Private Banks Made National and Five Ceased Business During Year.

## PEOPLE MORE SAVING

Madison, Wis., Jan. 24.—The annual report of State Bank Examiner E. I. Kidd, which was completed today, shows the state, private and savings banks of Wisconsin to be in a most flourishing condition. The report is based on the statements by the banks at the close of business on December 10, 1901.

The big increase in deposits and loans and discounts over that of 1900 indicates the extraordinary business prosperity the state is enjoying. Deposits have increased \$7,880,218.22. This means that the people in and near the smaller places, where most of the state, private and savings banks are located, have that much more money than they had a year ago and that they have earned this vast sum in twelve months. The large increase of \$5,049,322.38 in loans and discounts shows that the banks have about two-thirds of the deposits out at interest. The increase of \$1,170,288 in bonds also shows that the banks have about two thirds of the deposits out at interest. The increase of \$1,170,288.34 in bonds also shows where some of the deposits are invested.

The decrease in resources, capital and cash of private banks is accounted for by change of nine into state and national banks and voluntary liquidation of three and the closing of two.

The aggregate liabilities and assets of the 157 state, 137 private and the solitary savings banks of the state at the close of business on December 10 last were as follows:

## An Increase of Seventeen

The gross increase in the number of state banks during the year ending December 10, last, was 17. Ten new ones were organized and seven private ones were changed into state banks. During the year three state banks became national banks. The net gain in the number of state banks was 14, bringing the total up to 157. The gross increase in the number of private banks during the year was 21. Seven private banks became state banks, and two became national banks. Three went into voluntary liquidation, and two, were closed by the bank examiner. The net gain in the number of private banks during the year was seven, bringing the total up to 137.

## AN AGED COUPLE CELEBRATE TODAY

Mr. and Mrs. Willis S. Cole of Milton Junction, Are Married Sixty-Three Years.

Milton Junction, Wis., Jan. 24.—Mr. and Mrs. Willis S. Cole are celebrating here today the sixty-third anniversary of their marriage at the home of their daughter, Mrs. P. H. Cole. Willis Cole was born in Jefferson county, New York in 1810, and Sophronia C. Woodward was born in the same county on May 2, 1819. They were married in Ontario, Can., Jan. 21, 1839. They came to Wisconsin in 1844 and settled in Woodland. In 1865 they moved to Burnett and since 1895 they have made their home here. They are both in good health and though Mr. Cole is deaf, he is a constant reader of the papers and is well informed on all matters of current interest.

St. Louis, Jan. 24.—The National committee of the socialist party of the United States met this morning for the purpose of organizing for the campaign of nineteen hundred and four.

## ONCE MORE ON A GOOD FOUNDATION

Reorganization of the Badger State Telephone Company—Meeting Here Yesterday Afternoon.

The Badger State Long Distance Telephone company is once more on a solid basis. Enough stock had been guaranteed to take up the floating indebtedness of the company and put it in a sound financial condition. E. C. Reynolds, W. D. Gray and C. F. Pullen, the Milwaukee capitalists, who heretofore controlled the company and held their interests at extremely high figures, were willing to let go at a reasonable price. Hereafter the company will be handled from Janesville instead of from Milwaukee. The stockholders decided that it was for the best interest of all concerned that the management of the company be kept at home and the profits shared in such a way that all would be benefited by them. Since the organization of the company the benefits have gone to a few favored ones to the exclusion of others.

The meeting held yesterday afternoon was harmonious and the plan outlined by the re-organization committee put in force without a hitch. The capital stock of the company was not changed but left at \$100,000. It was clearly shown to the stockholders that the money invested was perfectly safe as long as the company interests were kept in good hands. One hundred and eighty-eight of the two hundred and fifty shares were represented at the meeting. The articles of incorporation were amended by a unanimous vote, changing the head office from Milwaukee to Janesville and increasing the board of directors from five to eleven, as a guarantee to the stockholders, that no clique should get control of the company.

The re-organization committee by C. W. Twining, chairman, made its report showing the exact condition of the company and the amount necessary to take up the indebtedness. Part of the amount had been subscribed and the balance necessary to put the company on its feet was pledged at the meeting. The board of directors chosen were: C. W. Twining, Monroe; F. W. Coon, Edgerton; H. D. Thomas, Blanchardville; D. C. Converse, Fort Atkinson; H. A. Molenpach, Clinton; D. H. Pollock, Beloit; A. S. Baker, Evansville; A. S. Maxson, Milton Junction; Richard Valentine, Janesville; J. C. Murodock, Brodhead; T. C. Heaffy, New Glarus.

At the conclusion of the stockholders' meeting the board of directors met and elected C. W. Twining of Monroe, president, and F. W. Coon of Edgerton, secretary. The balance of the company officers will be chosen at a later meeting.

## CATARRH OF THE STOMACH.

A Pleasant, Simple, but Safe and Effective Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with

sour or watery risings, a formation of gases causing pressure on the heart and lungs and difficult breathing, headaches, sickle appetite, nervousness and a general played-out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured, the catarrhal condition will have disappeared.

According to Dr. Harrison the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux, Golden Seal, and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Booher, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of the stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

## LAST DAY OF THE FARMERS' MEETING

Several Important Papers of Interest to Agricultural People Were Presented.

Milton Junction, Jan. 24.—The third and last day of the farmers' convention of Milton Junction opened with a larger attendance than that of the previous day. The morning exercises were begun with a prayer by the Rev. A. L. McLelland of Milton.

Dwight Clarke of Milton read a paper on "Home Dairying" and Supt. McKerrrow made an address on "Cultivation of Soils in Wet and Dry Seasons." This afternoon the Rev. T. W. North made an able talk on "Modern Methods of Doing Business" and Mr. McKerrrow spoke again on "Sheep Husbandry."

Yesterday afternoon the hall was packed to the doors as it had been on the day before. The literary program was opened with Prof. A. J. Hutton's address on "Training for Citizenship." He said in part:

In training for citizenship the child should be educated for the place it is expected to fill in adult life. The education should be broad and of the best. The German system of education approached his ideal, but leaned too far toward militarism. In this country we have to deal with things. Both boys and girls should have a good manual training, which develops both mind and muscle. Booker T. Washington, the eminent negro educator, firmly believes in a practical education; one which fits the person for the place he is to occupy in the industrial and professional occupations of after life. Look well to the body and keep the stomach in a healthy condition, that the health may not be impaired in gaining a trained mind. Teach all the good old-fashioned religion of our fathers and learn them to observe good rules. Give the boys and girls a generous share in wholesome and innocent amusements. Make your homes pleasant and be free to welcome their friends there. Teach them to live for others as well as themselves, that they may receive the greatest measure of happiness."

Miss Mina Cutler of Fairfield, gave an excellent recitation, and graciously responded to an insistent encore. Prof. Albert Whitford of Milton, read an interesting paper on "Industrial Combinations." He compared the methods of production during the nineteenth century with those of the present day and followed the ever changing industrial methods pursued by the great industrial institutions of late years.

Last evening a very interesting and largely attended literary and musical program was rendered for the benefit of the convention.

Cut this out and take it to People's Drug Store or King's Pharmacy and get free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

## A COLD WAVE IS HEADED THIS WAY

Just Now It Is Hurdling Across the Dakotas, But Is Due to Arrive Tonight.

A cold wave is headed toward Janesville and the mercury is scheduled to drop to near the zero mark by tonight or tomorrow morning. The cold snap, according to the weather man, will not be accompanied by snow. Today will be partly cloudy and Saturday will be fair. The full force of the cold wave last night had traveled as far south as the Dakotas and at last accounts it was skipping over the prairies as if supplied with seven-league boots.

## HORLICKS AGAIN SCORED A VICTORY

Exciting Game Attended by a Large Crowd at the Palace Rink Last Night.

Roller polo bids fair to regain the popularity it once held in this city. The crowd at the Palace rink last night reminded one of the crowds that used to be in attendance at the Racine-Janesville games years ago. During the last half when the score stood two to one in favor of Racine, the crowd broke loose and as in the old days when "Sperry was at his best" and "Nat Ehler was in the rush," urged the boys on by all kinds of calls to make it a tie.

The Taylors made a spurt and put up a fight that would have won with an ordinary team, but the Horlicks had a few good things left. Charley Smith, the veteran player, got hold of the ball and showed the boys that he was still one of the best when it came to juggling a polo ball and caged it in short order.

The game put up by the Taylors last night showed the result of practice and was a great improvement over their other games.

Murphy and Blakely are getting into team play and made many good passes. Comstock at goal was in a hot place most of the time and made some fine stops. Behrendt and Schaffer showed much improvement and filled their positions in good style.

Ollie and Reichert, the two youngsters on the Racine team, are a pair of whirlwinds. They are cool and level-headed and play the game for all there is in it. Charley Smith tended goal the first and second third but switched and got into the game in the last third.

The score at he finish stood 3 to 1 in favor of the Horlicks. At the end of the first third it was 1 to 0 in favor of the Taylors. At the end of the second third 1 to 1, but in the last third the Horlicks scored twice making it 3 to 1.

The first goal was made by Murphy of the Taylors in three minutes, the call for time finding the teams still fighting for a score.

The second goal was made by Ollie in the second third in 7:37, the balance of the fifteen minutes being taken up with play without a score.

The third goal was made by Ollie in the last third in 6:05 and the next by Smith in 3:20. The call of time put an end to the game before another score was made leaving the count 3 to 1.

## BRITAIN UNEASY OVER TAXATION

Prospect of Increased Duties  
Is Worrying Manufactur-  
ers and Importers.

### RUMORS OF A TAX ON TEA.

Chancellor Urged to Revive Registra-  
tion Duty on Corn—German Newspa-  
pers Discuss Transatlantic Steamship  
Combination—General Foreign News.

London, Jan. 24.—The uneasiness in the sugar trade, caused by the expectation of an increased duty, is growing as the date of the budget speech approaches. Sir Michael Hicks-Beach has promised not to increase the duty on coal, and this undertaking is regarded as foreshadowing an additional tax on sugar, and perhaps on tea.

It is rumored that the tax on tea will be raised from four pence to six pence a pound. The chancellor is being urged to revive the old registration duty on corn which Gladstone abolished many years ago. If the duty had been in operation last year it would have yielded \$13,290,000.

### Discuss Steamship Combination.

Berlin, Jan. 24.—Various German newspapers discuss the transatlantic steamship combination. The Deutsche Tages Zeitung, in an editorial broadside, urges the government to buy up the German steamship lines. The paper believes that a majority of the members of the reichstag would favor this project for the same reasons which enabled the late Prince Bismarck to nationalize the railroads of Germany. The unlimited capital behind the transatlantic steamship combination, says the Tages Zeitung, would force the German lines to make favorable terms and ultimately surrender their control. This would result in facilitating the imports of American goods into Germany, to the detriment of German manufacturers.

### Great British Combine Planned.

London, Jan. 24.—The newspapers are at last beginning to admit the possibility of the formation of a gigantic British iron and steel combine. Following on the announcement that the iron and steel firms of Guest, Keen & Co. and the Nettleford company are to be amalgamated comes the statement that this is only the beginning of a mammoth combine in which twenty large firms with a capital of from \$50,000,000 to \$75,000,000 will be interested.

### Government May Buy Plant.

London, Jan. 24.—Rumors are current in Sheffield and Barrow-in-Furness of the intention of the British government to purchase the shipbuilding yards of Vickers' Sons & Maxim, Ltd., and to establish a naval dock at Barrow-in-Furness. These rumors have been denied, but it is the general idea that negotiations to this end are proceeding.

### Justifies Scheepers' Execution.

London, Jan. 24.—St. John Brodriek, Secretary for War, in reply to a question by John Redmond in the House of Commons, said that the Boer commandant, Scheepers, who was shot last Saturday, after trial by British court martial, had been convicted of various offenses against the usages of war, including seven cold blooded murders of natives and the flogging of a white man.

### Negotiations Are Proceeding.

London, Jan. 24.—Replying to a question in the House of Commons Mr. Chamberlain, the colonial secretary, said that although communications were proceeding with France, his majesty's government was not yet in a position to make a definite statement of the French shore (Newfoundland) question.

### China Yields a Point.

Pekin, Jan. 24.—The Ministers of the foreign powers here have attained the goal which has been their aim since intercourse between China and the powers began. They have been received as representatives of sovereigns equal in rank to the Chinese Emperor.

### Fear for Prof. Virchow.

Berlin, Jan. 24.—The condition of Prof. Rudolf Virchow, the eminent pathologist, who injured his thigh by a fall when alighting from a street car the early part of this month, causes apprehension among his physicians. The professor is growing weaker.

### To Stem Undesirable Immigration.

London, Jan. 24.—It is understood that the government will meet the demand for a bill to stem the inflow of undesirable aliens by a proposal to appoint a royal commission to inquire into the whole question of alien immigration.

### Papal Bull Is Withheld.

Rome, Jan. 24.—The publication of the Philippine bull is suspended awaiting the development of Congressman Cooper's bill which proposes to grant a government to the archipelago which shall contain a preponderance of the Filipino element hostile to the friars.

### Farewell to Gov. Shaw.

Denison, Ia., Jan. 24.—More than a thousand persons crowded the Denison opera house last night to attend the farewell reception to Leslie M. Shaw. Secretary Shaw left for Des Moines this morning.

### CHARGED WITH GAMBLING.

Many Students Face Expulsion from the University of Wisconsin.

Madison, Wis., Jan. 24.—Persistent rumors of the prospective expulsion of students from the University of Wisconsin because of their overindulgence in poker for money have settled into a general belief that nothing will be done by the faculty's investigating committee until after the semiannual examinations, which will be held two weeks hence. The faculty committee procured a list of fifty young men who were habitués of the poker games. It is said that the examination papers of these particular students will be most rigidly scrutinized for evidence of slack work in consequence of too much devotion to cards.

### Hobs n Wants to Retire.

Washington, Jan. 24.—Captain Richmond Pearson Hobson, the naval constructor, who sank the collier Merrimac in the harbor of Santiago de Cuba, has asked to be retired.

### Favors for Mrs. McKinley.

Washington, Jan. 24.—The President has signed the bill providing for the free transportation of all mail matter sent by Mrs. Ida S. McKinley, widow of the late President McKinley.

### Chinese Die of Plague.

Washington, Jan. 24.—Consul McWade, at Canton, has cabled the State Department that there have been more than 100 deaths from the plague at Shantung, about 250 miles south of Canton.

## CONSUMPTION

A Disease That Is The  
Terror Of Our Times.

Vinol Can Prevent  
It.

Consumption is not hereditary. The best physicians today tell us so. A predisposition to the trouble, however, is to be feared. If any of you have had ancestors who suffered from this awful disease or died from it, then you should take particular care.

Your system is such that under favorable circumstances the disease germ is likely to find a resting place, take root, flourish, develop and as all consumptive cases must eventually in death. The person susceptible to this disease is like ground, favorable for the cultivation of certain seeds, the seed once placed on such ground thrives and flourishes.

If you will only come in and let us talk with you, we can tell you better in a few minutes' personal conversation all that Vinol can do to cure coughs and prevent consumption than we can describe to you in pages of type. But, briefly we will state for the benefit of our many friends that we know that Vinol invigorates the stomach, enriches the blood, creates flesh and gives to the taker strength, and thus throws off disease. This is done because it contains those valuable medicinal ingredients in a highly concentrated state that made Cod Liver Oil famous. The advantage of Vinol over the old forms of Cod Liver Oil lies in the fact that the medicinal elements are contained in a much more powerful state, and the disagreeable and obnoxious grease that was such a drawback to Cod Liver Oil is entirely eliminated. The following letter on this subject may interest you.

"After using Vinol in my family for about six months, I deem it my duty to say something in its behalf. My wife had coughed last winter and I thought she would go into consumption but I got two bottles of Vinol for her which cured the cough and helped her in many other ways. Since taking it she has not ever had a cold." A. J. STUART, Alexandria City, Ala.

Remember we guarantee that Vinol will always do all we claim for it and always stand ready to refund the cost of the medicine to anyone who is not satisfied that what we claim is true.

## WHAT IS LOYALTY?

A trait of character that is worth cultivating and practicing is loyalty. The man who is not loyal to his home and his family, soon ceases to have a home. Friendship is based on loyalty, and without it the ties that bind people together, are soon severed. Loyalty to a country inspires patriotism, and loyalty to a state, brings contentment and happiness.

The same is true of a city that a man calls his home. If he would get out of it all the satisfaction to which the citizen is entitled, it must be for him the best city for a home that the land contains, he must not only be enthusiastic in its praise, but he must be absolutely loyal to it. The schools, the churches, the manufacturing and business interests, must be a source of constant pride and satisfaction. He must be broad enough and liberal enough to rejoice in the prosperity of his neighbors, and charitable enough to sympathize with men who are less fortunate.

Janesville has a liberal percentage of this class of citizens, but unfortunately it has a limited class of men who are familiarly known as knockers. Men who envy prosperity which may come to anyone but themselves, and who delight to pull down and destroy.

The opposition that has developed to Senator Whitehead in his home town, and county, is of this order. The men who are at the head of the movement known as well as they know anything, that Governor La Follette's renomination, will be opposed in the convention. The governor, expects this himself, and has understood from the date of the adjournment of the legislature, that party sentiment was divided beyond hope of harmonizing. Senator Whitehead is so well and favorably known throughout the state that popular sentiment has centered on him, as the most available candidate. He has not courted this sentiment, and the expressions of confidence, that are so universal, are an honor of marked distinction. He has long been a citizen of the Boyer city, and closely identified with its interests, as well as the interests of the county. The honor that comes to him is shared by both city and county, and is so regarded and appreciated by a large majority of the citizens.

If he consents to be a candidate before the convention, he may be nominated, or he may not. That has nothing to do with the question of loyalty to which he is entitled as a citizen. The supporters of the governor should be possessed of local pride enough to rejoice in Mr. Whitehead's popularity, and the few men who may have a personal grievance, can hardly afford to air it, under the circumstances. It is questionable whether there is another city in the state where every citizen would not rejoice in having as a citizen, a man who enjoyed state wide recognition and popularity.

The knockers and kickers are so largely in the minority that their influence will not be felt, and Senator Whitehead will not be disturbed. If the city and county is ever favored with a governor, it will be a distinction of which every citizen may well be proud.

## RURAL MAIL DELIVERY.

The rural mail is an innovation of such recent date, that it will require time and patience, as well as intelligent direction, to perfect. The system is being rapidly extended, and something more than 2,000 rural post offices have already been established, of which seventy-three are in Wisconsin. The present congress will make a liberal appropriation for the extension of the service, and it is only a matter of time when the whole country will be covered.

There is one weakness of the system that should be corrected, and that is the pay of the carriers. The routes are uniform in length, being about twenty-five miles, and the pay for the service is uniform, and fixed at \$500 per year. This barely pays the expense of supplying and maintaining an outfit, and leaves the carrier practically nothing for his work. If the system was on the star route basis, it could be no worse, so far as compensation is concerned. The government can afford to pay fair wages for labor, and there is no disposition on the part of the people to criticize a just and liberal policy. The mail service is an important part of the machinery of government. Any attempt to make any particular branch self-supporting, is a false conception of economy. A railroad frequently runs a feeder at a loss, so far as individual earnings is concerned, but it is a part of a great system, that would be incomplete without it. The mail service, in every department should be treated in the same way. The public is entitled to the best, and the men who do the work, should be paid living wages.

## BLUSTER AND NOISE.

The few disgruntled La Follette men in the city, who are engineering the movement to keep their favorite

in the field, only need a brass band to complete the equipment. They have mounted couriers chasing over the county, and emissaries on foot, and by private conveyance, scouring the country districts, in a desperate effort to stem the tide of popular sentiment for Senator Whitehead.

They seem possessed of the crazy notion that noise and bluster, will so intimidate the conservative element of the party, that it will be annihilated by one fell swoop. They forget the fact that the state is large, and that the Whitehead sentiment is state wide and rapidly developing.

In Fond du Lac, 140 names were signed to his petition in two hours, while at Eau Claire over 600 are enrolled, and the list is growing fast. At Stevens Point the sentiment is all one way. D. E. Frost, a man of wealth and influence, has forsaken La Folletteism, and is working vigorously for Mr. Whitehead, and with marked success. He has charge of the canvass in Portage county, and sent out with his petitions, the following circular letter:

"Stevens Point, Jan. 15.—Dear Sir: Stalwarts desire to make a simultaneous call to Hon. John M. Whitehead asking him to become a candidate for governor before the next state convention. On this date I send you blanks for signatures. This form of call is being circulated in each congressional district in the state and I am called upon to distribute them in this district to the parties in each assembly district in the state. I am to have the same returned to me and then forward them to Mr. Whitehead. It is desired that every assembly district be thoroughly worked, and that a very strong list of signatures be secured. You will thoroughly understand the situation. Kindly return lists to me in season that they may all be forwarded to Mr. Whitehead before Feb. 1. This matter is being started at this date in every county and assembly district in the state. It has been deemed advisable to concentrate on some one man as a candidate and Mr. Whitehead being a high-minded noble, clean, able man seems to be the one for the position. I wish it were possible to have a personal conference with you regarding the situation but you are no doubt fully alive to the same and I again ask you to press the work with great vigor that we may work up an overwhelming list for Mr. Whitehead. This will show to the people of our state the great strength that is behind this movement. Kindly advise me upon receipt of subscription lists, that I may know they reached you. Yours truly, D. E. FROST.

## THE WHITEHEAD MOVEMENT.

The movement in favor of the gubernatorial candidacy of Senator John M. Whitehead has gained considerable headway in the various sections of Wisconsin, and the present indications are that it will gather strength right up to the time of the convention, resulting not only in his candidacy, but in his nomination and election. It is clearly a case of where the office seeks the man. The senator is not a candidate in the sense that he is seeking the nomination, in fact he has not yet consented to be a candidate at all.

His friends, who are scattered throughout the state, have, during the past week, been working on a plan which it is hoped, however, will bring him out as a candidate. Hundreds of petitions are being circulated in every county in the state asking that he become a candidate for governor on the republican ticket, and it is believed that when these petitions are presented to him, signed, as they will be, by thousands of republicans from all sections of Wisconsin, he will yield to their wishes and accept the leadership tendered. Here in Fond du Lac county, the petitions have not been circulated outside of the city, as yet, and still the list of signatures is large; for the Whitehead sentiment in this locality is strong.

The confidence which the rank and file of republicans in Wisconsin are placing in Senator John M. Whitehead, is well deserved. The gentleman, whom it is thus proposed to make the leader of the republican party, and the governor of the great state of Wisconsin, is no stranger to the voters.

The republicans of Wisconsin, who have felt the need of a new leader, in the approaching campaign, could not have made a better selection than John M. Whitehead. It is to be hoped that he may accept the call thus extended, in which event the campaign in behalf of republicanism will be pushed on to a successful termination. The republicans of Wisconsin have faith in Senator Whitehead and will give him their most cordial support.—Fond du Lac Commonwealth.

## SENATOR WHITEHEAD'S ADDRESS.

## DRESS.

People who expected to find in Senator Whitehead's address at Milton Junction, anything political, were disappointed. It was a plain and simple statement of taxation, how it originated, and how it was applied during the years of primitive development, and a review of some of the complex questions that have resulted from the rapid advance in progress. It contained much in the way of suggestion, and was an impassioned appeal for fairness and justice. The senator has confidence in the ability of the tax commission, to work out some of the difficult problems presented. While nothing specific was recommended in dealing with corporations, he believed that this class

of property should be taxed from its source. The Massachusetts law he considered very effective and satisfactory to all interested.

The address was strong and vigorous, and was well received by the intelligent audience.

If Illinois secures Luther Laflin Mills to succeed the good natured but erratic Billy Mason in the senate, the state will have a representative, worthy of the name. Mr. Mills is a brilliant orator, and a man of broad intelligence.

## PRESS COMMENT.

Madison Democrat: It is said there is gambling among university boys. It is even said that some students play poker for the money there is in it. Students that foster the gambling spirit, that prey upon the weaker and siller element, and that seek to win money and make gain by gambling should feel the impact of the too of the faculty boot. The only pity is that they cannot be branded like a condemned army mule or placed in quarantine like a yellow fever immigrant. Of all sneaks, the would-be gambler is the sneakiest.

Oshkosh Northwestern: Why not add a department of poker playing to the present curriculum at the state university and teach the young men to master the mysteries of the game so that when they go out into the cold, unsympathetic world they will be able to take care of themselves without the usual trying experiences of amateurs who are sure to quit losers for the first few years of their experience with the game?

Governor La Follette should have vetoed the ice export tax passed by the legislature last winter, which he did not veto. He should not have vetoed the law giving efficient aid to the state board of health, in suppressing contagious diseases, which he did veto. It takes a very wise man to be a wise governor, and he must have some other aim than that of perpetuating himself and his particular friends in office.—Monroe Sentinel.

Richland Center Observer: If there ever was a piece of fool legislation enacted in any state, it was the noted Wisconsin ice bill of last winter. It lacks both the elements of common and business sense. A product that nature produces and that should be free as air to all comers, is burdened with a tax, that must be paid, if paid at all, by consumers.—Prairie du Chien Courier. Right you are, Brother Merrill, right you are.

Grant County Witness: John M. Whitehead is a man the mention of whose name as a candidate for the republican nomination for governor inspires confidence from the start. His utterances on taxation or any other question pertaining to the welfare of the state are sincere. There is nothing of the demagogue about Whitehead.

If a true champion of tax reform is wanted as a candidate for governor next fall, what's the matter with Senator John M. Whitehead of Janesville? He has done more to bring about a just and equitable system of assessment and taxation than all the La Follettes and A. R. Halls in the state.—Bloomer Advance.

Fond du Lac Reporter: The state papers are furnishing a vast amount of material for the Milwaukee papers these days—telling how the editors view the political situation. Those who are really in earnest prefer to wait until the democrats make their nomination, before committing themselves as to where they stand.

Milwaukee Journal: Of course Marathon and Sheboygan counties think Mr. Whitehead's selection as a candidate was a mistake. By the same token Marathon would think the same of Mr. Dennett and Sheboygan of Mr. Alexander. It would be a mighty mean county that would not stand pat when honors were paid to one of her own people.

Milwaukee Sentinel: A fine new toboggan slide has been erected out at Oconomowoc Lake. It is not denied that prominent La Folletteites are practicing on it daily in order to perform the inevitable act with grace and dignity.

Brandon Times: Whether he be "stalwart" or "half-breed," or just a plain republican candidate, Senator John M. Whitehead may be sure of the undivided support of this paper if he is nominated for governor.

La Crosse Republican-Leader: At the present rate, nothing on earth can stem the tide of public opinion that demands the nomination of Senator Whitehead for governor.

Milwaukee Journal: The morning organ of La Folletteism talks so much about Mr. Whitehead that it will be likely to drive them into politics.

## OUT OF THE ORDINARY.

Contrary to the universal custom this state is just now witnessing a case of the office seeking the man. Senator John M. Whitehead of Janesville has not said whether he would be a candidate for gubernatorial honors or not, but he seems to be the choice of the stalwart faction of the republican party and a good many others as well. Petitions are being circulated and signed as fast as the opportunity is presented. These will be used in a call to the senator to allow his name to be used as a candidate for the office of governor. He has never asked any man for his support and everything of this kind that has come to him has been voluntary, including the withdrawal of Dennett and Alexander. These gentlemen

are both in line for Whitehead and will enthusiastically support him.—Brookfield Register.

## SMILES.

In making the announcements to his congregation recently, an Episcopal minister whose parish is not more than a thousand miles from San Francisco, said: "Remember our communion service next Sunday. The Lord is with us in the forenoon and the bishop in the evening.—San Francisco Wave.

"What would you like to be when you grow up?" asked an old gentleman.

"I'd like to be a bricklayer," replied the boy.

"That's a commendable ambition. Why would you like to be a bricklayer?"

"Cause there's so many days when bricklayers can't work."

City Nephew—Where is uncle this morning?

His Aunt—He's out in the barn watering the stock.

## Mrs. Richardson to Testify.

Plattsburg, Mo., Jan. 24.—Mrs. Adie B. Richardson, charged with the murder of her husband, Frank W. Richardson, at Savannah, will testify in her own behalf to-day. Mrs. Richardson's testimony will end the evidence of the defense. Mrs. Richardson expresses herself as being confident a verdict of acquittal will be rendered. Yesterday it was shown the defendant made trips about the streets of Savannah after night in company with Stewart Fife, which fact the state brought out, for the purpose of finding her husband.

## Bill and Harriman to Testify.

Chicago, Jan. 24.—James J. Hill and E. H. Harriman, before the interstate commerce commission, will be required to tell what they know regarding great aggregations of capital pooled and invested in railroad properties and the effect they are having and will be likely to have upon the commerce, traffic and welfare of the entire country. The inquiry is the most important ever conducted by the commission, and the result is likely to be far-reaching.

## SOME ACTIVITY IN TOBACCO MARKET

GROWERS ARE MAKING CONCESSIONS IN THE PRICE.

The Demand for Old Stock is Quite Brisk—Some Deliveries of the New Crop Have Been Made—Question of Tariff Reduction on Cuban Tobacco.

Very little change has taken place in the local tobacco market during the last week. A few important sales of old goods have been made at prices that lead the grower to believe the crop is bound to command a high figure. A few firms in this city are buying quite an amount of the 1901 crop and paying good prices for the goods. They however are taking their pick of the crop and often ride half a day and look at many crops without buying.

The question with the packer is not how much he shall pay for the goods but whether the demand for the crop will be such that he can afford to pay the price asked and get out whole.

Some deliveries of the new crop have been made at the warehouses and as a general proposition the tobacco is in very fair packing condition. The yield is of course, much lighter than usual, but this was expected. The leaf is thinner than was looked for and will run largely to short sizes and the percentage of filler grades will be greater than usual.

There is an unceasing disposition on the part of the growers to make concessions in the price, which has caused some activity in the market.

A demand for old stock is quite brisk, a majority of the packers who have any old goods on hand are holding them for an advance on the market. Barnard & Wilder have recently purchased 500 cases from Stoughton dealers for the account of S. Rosin & Co., New York dealers. F. S. Barnes sold a 100 case lot to export and S. B. Heddles picked up 200 cases of low grade goods. These comprise the recent transactions.

W. B. Conrad has lately purchased from Mr. Apple of Racine a car of tobacco which he says will compare favorably with any grown in Rock county. Mr. Conrad has purchased Mr. Apple's crop for several years. Racine county is not much of a tobacco growing district, twenty acres will cover all that is grown in the county.

On last Saturday the supreme court of Pennsylvania refused a rehearing in the suit of J. L. & M. F. Greene, tobacco dealers of Reading, against C. A. Fon Dersmith, trustee, to determine the ownership of 135 cases of tobacco levied on by the sheriff as the property of A. B. Hostetter, on an execution issued by Fon Dersmith against Hostetter. The court gave binding instructions to the jury for a verdict in favor of the defendant. This verdict the Supreme Court sustained and has now refused to hear re-argument. The amount involved was about \$2,500. The Greens alleged in their complaint that Hostetter sold the tobacco on the strength of fraudulent misrepresentations which he made respecting his financial credit.

The question of a reduction of the tariff on Cuban tobacco is the all absorbing topic at present among the growers and dealers of leaf tobacco in this section. While Wisconsin would not suffer as much from the reduction as Ohio, Pennsylvania and New York, the prevailing feeling is that any reduction in the tariff on Cuban tobacco would work an irreparable injury to the growers and dealers. It was with the idea of keeping the tariff at its present figure that the meeting at Madison was held Friday. The farmer is the one that should be particularly interested in this movement as they are the ones that will be the big losers by the change.

Business among the leaf jobbers of Milwaukee is rather quiet for the week just passed, and it is hard for them to tell just exactly what ought to be coming in, as the traveling men have been on the road but a few days and they have not as yet bombarded their headquarters with large orders. However, good orders are expected from now on. Collections have been slow.

Two tobacco men from the tobacco section of this state called here last week soliciting orders for Wisconsin. This is the first time in a long while that Milwaukee leaf men have been approached by the growers of Wisconsin and tends to show that Wisconsin will be offered more freely than heretofore.

## MR. WHITEHEAD RECEIVES A MEDAL

The Medal is Made From the First Steel Rolled in the New Mills at Waukesha.

Senator J. M. Whitehead this morning received a medal from Waukesha which is quite a novelty.

The medal is about two inches in diameter and made of steel from the first sheet of steel rolled by the steel mills at Waukesha. It is of handsome design and is enclosed in a plush and leather case. On one face it has a raised laurel wreath around the edge and in the center the inscription, "made from the first sheet of steel, rolled in the state of Wisconsin at Waukesha, Nov. 22, 1901."

On the reverse side it has the seal of the city of Waukesha, showing an Indian drinking from a spring and around the edge in raised letters, "Souvenir for the benefit of the public library at Waukesha." Evidently numbers of these medals have been made and turned over to the Waukesha library board to send out to prominent men throughout the state in hopes they will see fit to swell the library fund. It is really a handsome medal and is valuable as a souvenir of the opening of a new industry in the state.

Search for a Horse. Under Sheriff Wallace Cochrane is home from a trip to Oregon, Ill., where he has been in search of horses and wagons and other things stolen from people in this county by C. J. W. Augrellas, who was sent to the pen some time ago. He found the wagon taken from the Trip farm at the time the horses were stolen, but could get no trace of the horses.

The wagon was badly used up and not worth bringing home. He found the horse that Augrellas had when he was arrested and thinks that it belongs to a farmer west of Evansville, who will go down to Oregon to see if he can identify the horse. Augrellas covered up his tracks so carefully that it is a pretty hard thing to get any definite clew to his movements.

## HANNA LOOKS FOR WORLD'S MARKETS

Ohio Senator Advocates a  
Wide Expansion of Amer-  
ican Trade Zone.

CLASHES WITH MR. HALE.

Letter Thinks We Now Have All the  
Markets Worth Having—Bankers Make  
Objection to a Ruling—Proceedings  
of the House.

Washington, Jan. 24.—There was a  
clash in the Senate Thursday between  
Senators Hanna and Hale. It was over  
the question of whether the United  
States should expand its commerce,  
and arose during the discussion of the  
proposition to establish a Department  
of Commerce.

The debate began by a discussion of  
the amendment of Mr. Pettus that the  
Department of Labor be not trans-  
ferred to the proposed Department of  
Commerce. Messrs. Pettus, Nelson  
and Bacon all spoke in favor of the  
amendment.

Mr. Hanna said the establishment of  
the new department was in the inter-  
est of both capital and labor. He be-  
lieved the labor interests of the coun-  
try would not object to the transfer of  
the labor department. It has been his  
privilege to discuss this subject with  
the laboring men of the country and  
he was certain they favored the pend-  
ing bill. There was no question be-  
fore the country to-day, he said, which  
demanded such careful attention as  
the industrial development of the  
country and the expansion of our com-  
merce. The time had come, he said,  
when we must expand our commerce  
or restrict our production.

At this point he was interrupted by  
Mr. Hale (Me.), who said that the  
United States already had captured all  
the foreign trade worth having. "The  
record of what has been accomplished  
by the Dingley law," continued Mr.  
Hale, "is to me the most amazing  
record ever exhibited to the world in  
the absorption of foreign trade. We  
have absorbed foreign trade in the  
great countries that are competitors of  
ours. We have not wasted our ener-  
gies in a dream of what is called  
Oriental trade, which never did and  
never will figure in comparison with  
the markets of the civilized world."

"We have invaded England, Ger-  
many, Austria, Italy and Russia, and  
for the Senator (Mr. Hanna), who  
stands as a representative of the  
achievements of the Dingley law, to  
join the ranks of men who declare  
that we will be ruined if we do not  
get additional markets for our goods  
is to me a matter of surprise. We do  
not need further action nor do we need  
additional markets."

Mr. Hanna replied that the United  
States had not conquered the markets  
of Europe and the markets of the  
world were yet an unexplored field for  
us. In order that the direct attention  
of the government might be given to  
the commercial and industrial inter-  
ests of the United States, the com-  
mercial, industrial and agricultural bod-  
ies of the country had demanded a bill  
of the kind pending, and he asserted  
that when he spoke of the industrial  
interests he referred to capital and  
labor, organized and unorganized.

Mr. Hale then offered an amend-  
ment transferring to the new depart-  
ment the Interstate Commerce Com-  
mission, and further consideration was  
deferred.

Deficiency Bill To-day.

Washington, Jan. 24.—The consid-  
eration of the urgent deficiency bill,  
which has been under debate in the  
House since Monday, was completed  
yesterday, but owing to the lateness of  
the hour passage of the bill was post-  
poned until to-day. A successful  
effort was made to increase the pay  
of rural free delivery carriers from \$500  
to \$600 per annum.

Mr. Cummings (N. Y.) explained his  
action of Wednesday on the Philippine  
army post. He closed by saying that  
his party started right on the subject  
but ended miserably. He said he voted  
as he did as a Democrat—as a Tam-  
many Hall Democrat—and was proud  
of it, and added: "There is no polit-  
ics in a question where the lives of  
American soldiers are at stake."

Bankers File Objections.

Washington, Jan. 24.—A delegation  
of New York and Chicago bankers  
yesterday had a conference with Com-  
missioner Yerkes of the Internal Re-  
venue Bureau, and requested him to  
suspend the operation of his ruling to  
the effect that undivided bank profits  
should be taxed the same as other  
bank surplus. The bankers only asked  
delay in the execution of the ruling  
until the law questions involved could  
be judicially determined, and said in  
the meantime they were quite willing  
to make their returns to the internal  
revenue as at present required.

Ask for a Plurient Currency.

Washington, Jan. 24.—The National  
Board of Trade concluded its sessions  
here Thursday, after adopting resolu-  
tions asking Congress to enact laws for  
the improvement of the Consular ser-  
vice and to provide a currency that can  
be easily circulated in times of dis-  
tress.

DON'T ACCEPT COUNTERFEITS.

For piles, skin diseases, sores, cuts, bruises,  
burns and other wounds nothing equals Dr.  
Witt's Witch Hazel Salve. Don't accept a coun-  
terfeit. None genuine except Dr. Witt's.  
Have suffered since 1865 with protruding, bleed-  
ing piles and until recently could find no per-  
manent relief," says J. F. Gerall of St. Paul,  
Ark. "Finally I tried Dr. Witt's Witch Hazel  
Salve which soon completely cured me."

## MUTINOUS MATE IS SHOT.

Captain of the James Drummond Kills  
Officer in Self-Defense.

Bath, Me., Jan. 24.—Word has been  
received here of the eventful voyage  
of the ship James Drummond from  
Puget Sound to Fremantle, Australia,  
during which Captain H. J. Nason was  
forced to shoot First Mate Thomas  
Burns to save his own life and pre-  
vent mutiny on the craft. When  
passing the Fiji Islands Burns pulled  
out his revolver and pointed it at his  
superior. Captain Nason shot Burns  
the bullet striking the mate in the  
breast. As the shot was fired the  
Chinese cabin boy grabbed a carving  
knife and stabbed the mate in the  
throat.

Burns died instantly. Captain Na-  
son put in at Fremantle, where after  
a consular inquiry he was exonerated  
from blame.

McKinley Day in Michigan.

Lansing, Mich., Jan. 24.—Gov. Bliss  
yesterday issued a proclamation call-  
ing upon the people of Michigan to ob-  
serve Wednesday, January 29, the an-  
niversary of the birth of the late Pres-  
ident McKinley, as a day for making  
contributions to the McKinley Mem-  
orial Fund. The proclamation suggests  
that the day be observed by the chil-  
dren in the schools and that the church  
people take suitable action.

Door Resolution in Congress.

Washington, Jan. 24.—Representa-  
tive Clark of Missouri yesterday intro-  
duced a joint resolution expressing  
sympathy for the two South African  
republics and regret over the suffering  
caused by the war. The resolution ex-  
presses the hope that this declaration  
by Congress will influence Great Brit-  
ain to consider favorably a settlement  
of the troubles.

Victory for Dairy Men.

Washington, Jan. 24.—The friends of  
the measure for rigid restrictions on  
oleomargarine and kindred products  
carried their point before the House  
committee on agriculture yesterday  
and by a vote of 12 to 5 ordered the  
report of a bill which is even more  
restrictive than the original Grout  
bill, reintroduced by Representative  
McCleary of Minnesota.

Twenty-ninth Going to Manila.

Chicago, Jan. 24.—Within a month  
the Twenty-ninth Regiment, stationed  
at Fort Sheridan, expects to be en-  
route for Manila. The Twenty-ninth is  
one of the new infantry regiments  
formed under the recently enacted  
army reorganization bill, and is now  
virtually a complete organization, ex-  
cepting a few minor officers and men.

neuralgia, sciatica, rheumatic  
pains, monthly pains, etc.

"Dr. Miles' Pain Pills are worth their  
weight in gold," says Mr. W. D. Kre-  
mer, of Arkansas City, Kan. "They  
cured my wife of chronic headache  
when nothing else would."

"Dr. Miles' Pain Pills drive away  
pain as if by magic. I am never with-  
out a supply, and think everyone  
should keep them handy. One or two  
pills taken on approach of headache  
will prevent it every time."

Mrs. JUDGE JOHNSON, Chicago, Ill.

Through their use thousands of  
people have been enabled to at-  
tend social and religious func-  
tions, travel, enjoy amusements,  
etc., with comfort. As a preven-  
tive, when taken on the ap-  
proach of a recurring attack,  
they are excellent.

## You Don't Want....

to wear the same patterned suit as your neighbor. That's one of the disadvantages of buying the ordinary Ready - to - Wear Clothing, from which the Ziegler Clothes differ in that the patterns of the fancy suitings are exclusive, and besides we have only a very limited number of each pattern. You run a smaller chance of seeing your suit duplicated on another man when buying Ziegler clothes than when having a suit made-to-measure at your tailor's, because a dozen tailors may have the same pattern in this city, while we alone sell clothes made only for us.

Suits, **\$15 to 35**
